This Facilities Report Security supplement has been devised by the United Kingdom Registrars' Group (UKRG) in consultation with the UK Museums Security Adviser at Museums, Libraries and Archives Council for use with the United Kingdom Standard Facilities Report.

The form will enable lenders and, if requested the UK Museums Security Adviser to assess the practicalities involved in making loans with particular regard to emergency and security planning. It is intended to help both borrowers and lenders identify potential problems and reach agreement on how these can be resolved.

It should therefore be completed and returned as quickly as possible.

The form is intended for use in all kinds of museums and galleries, irrespective of type of collection or size. For this reason not all questions will be relevant to every borrower. However as a standard form it can be filled in once and updated for use with any future loan requests. Please complete the form therefore as fully and accurately as possible, adding any other information which you feel may be relevant. You should retain a copy for future use.

It is important that you do NOT include the name or address of the venue that the questionnaire describes. Identification should be by the reference code found below.
